Shanghai International College of Intellectual Property (SICIP) of Tongji University was established on November 17th, 2016 under the support of the World Intellectual Property Organization (WIPO), the State Intellectual Property Office of the People’s Republic of China (SIPO) and Shanghai Municipal Government. Currently, SICIP has two international programs, namely, WIPO-Tongji Master’s Degree Program in Intellectual Property Law with Specialization in Design (MIP in Design) (WIPO-Tongji MIP) and the Belt and Road Master Degree Program in Intellectual Property (B&R MIP).

Under the strong support of SIPO and Shanghai Municipal Government, SICIP obtained excellent achievements in the year of 2017 in the fields of college construction, discipline building, academic research, talent cultivation, internationalization, think tank establishment and college management. Please refer to the details of our achievements in the annual report.

Over the next five years, SICIP aims to build a world-class intellectual property talent training base and cultivate high-end compound talents who have technological background, proficiency in management and law, capability of international communication and competency for international intellectual property affairs; to establish top international intellectual property discipline taking sustainable development as the guidance so as to support Shanghai to become the innovation center with global influence and Asian-Pacific intellectual property center; as well as to own a think tank with global influence to serve the national strategy of innovation-driven development, the Belt and Road construction and construction of a powerful nation of intellectual property.

We are young for infinite potential!
We are hand in hand for promising future!
Brief Introduction of SICIP

Tongji University formally started the construction of intellectual property discipline in 2003 under the support of the State Intellectual Property Office of the People’s Republic of China (SIPO), China Academy of Social Sciences (CASS) and Max Planck Institute (MPI) for Innovation and Competition (formerly MPI for Intellectual Property, Competition and Tax Law). Tongji University has established Intellectual Property Doctoral program as the second-level discipline under the first-level discipline of management science and engineering, which heretofore has cultivated more than 30 doctors with international vision and interdisciplinary composite knowledge structure. The talent cultivation in intellectual property discipline in Tongji University has earned a high degree of recognition and praise from the society. Under the guidance of concept of internationalization, perspectiveness and practicability and relying on the traditional advantages in cooperation with Germany and strength of science and engineering, Tongji University gathers a number of famous domestic and foreign experts and scholars, and connects talents training and academic research with national and regional economic and social development to lay a good foundation of intellectual property education and research strength that reaches the first-class level both in China and in the world.

The intellectual property discipline of Tongji University gathers many well-known intellectual property scholars in China and a group of potential young scholars. Among them, three scholars are nominated as members of the National Intellectual Property Expert Advisory Committee. Meanwhile, Tongji University devotes itself to bringing in well-known intellectual property scholars in China and abroad as adjunct professors and appointing well-known judges and lawyers in the intellectual property field as supervisors to guide students’ legal practice.

Tongji University is the first and the only university in China (including Hong Kong, Macao and Taiwan) that jointly develops the Joint-Master Degree Program in cooperation with the WIPO (Tongji-WIPO MIP in Design). Meanwhile, Tongji University is also the first university in China to undertake the Belt and Road Master Degree Program in Intellectual Property with Chinese Government Intellectual Property Scholarship commissioned by the Ministry of Education and SIPO. The intellectual property discipline of Tongji University keeps a long-term relationship with Humboldt University (Germany), University of Konstanz (Germany), Max Planck Institute for Innovation and Competition (Germany), Turin Polytechnic University (Italy), University of Florence (Italy), Hanken School of Economics (Finland), the United States Patent and Trademark Office, George Washington University (U.S.A.) and Russian Federal Institute of Industrial Property. So far, the intellectual property discipline of Tongji University has hosted 12 “Tongji-Bayer Intellectual Property International Forum” and “China-EU IPR Judges Forum” as regular events; organized “2015 IP Training for Developing Countries” (in English) benefiting 34 intellectual property officers from 18 countries along the Belt and Road, and the
“Chinese Intellectual Property System Training Program” (in English) from 2012 to 2014 providing training for 60 patent examiners from developed countries such as the United States, Germany and Japan; as well as collaborated with the MPI for Innovation and Competition to host 5 high-level talent trainings for “Millions of Talents Projects” of SIPO, with approximately 100 trainees participated.

In recent years, the faculty members in the intellectual property discipline have successfully applied 10 research projects at the national level and more than 30 research projects at the ministerial and provincial level as principal investigators, including 3 Major Projects and 1 Key Project of the National Social Science Fund of China and published more than 100 papers in the core academic journals of China.

From January 2012 to June 2016, the faculty members in the intellectual property discipline have completed more than 30 research reports on the topic of intellectual property matters and 7 emergency research reports concerning important national intellectual property policy decision, published more than 30 “IP Information Express” (10 were commented by the leaders of SIPO) and 6 “Work Dynamics” (delivered by the Office of the Inter-Ministerial Joint Meeting on the Implementation of National Intellectual Property Strategy to leaders of the State Council and two related ministries and departments), provided more than 10 policy proposals for related departments of national and Shanghai municipal governments on related intellectual property matters, as well as supplied 3 expert proposals for the State Council to draft related documents. The articles “Building China as A Powerful IPR Nation” and “Intellectual Property Intensive Industries on China’s Economy” are fully reflected in the “Certain Opinions on Accelerating the Construction of China’s Strong Power in Intellectual Property under the New Situation” issued by the State Council on December 22, 2015. The series articles on “Protection and Management of Intellectual Property in the Free Trade Zone” were submitted to the related leaders of the State Council, the Central Office, the General Office of the State Council, 28 ministries and commissions of the State Council and Shanghai Municipal Government, with part of the suggestions in the series articles having been implemented in Shanghai.

The faculty members of the intellectual property disciplines of Tongji University worked as heads of the Chinese experts group and key members of the ministerial level “Sino-EU Dialogue on Innovation and Cooperation”. The opinions provided in the Dialogue by the faculty members on intellectual property, technical standards, market access and national treatment actively facilitated the smooth progress of the “Sino-EU Dialogue on Innovation and Cooperation” and mutual benefit and win-win cooperation between China and the European Union. In addition, the intellectual property discipline of Tongji University hosted 8 Training Seminars for National High-level Staff including 200 people trained, 1 Training Seminar for National Intellectual Property Leading Talents and a number of Seminars for Provincial-level Advanced Intellectual Property Research.

Launch Ceremony, 2016
ZHONG Zhihua, President of Tongji University
ZHAO Wen, Deputy mayor of Shanghai Municipality
WANG Binying, Deputy director general of the WIPO
SHEN Changyu, Commissioner of the SIPO
YANG Xianjin, Chairman of the Tongji University Council
(from left to right)
2017 ADMISSION

91 New Students
20 Nationalities
20% International Students
3 Majors
6 Classes
WIPO-Tongji Master’s Degree Program
The Belt and Road Master’s Degree Program
LLM Program (in Chinese)
Juris Master Program (in Chinese)
The 2017 Orientation Ceremony for new students of SICIP and for WIPO-Tongji MIP in Design and the Belt and Road MIP was held in room 1002 of Zhonghe Building on September 19th, 2017. The following invited guests have attended the Orientation Ceremony and offered blessings and expectations for the new students: Mr. Sherif Saadallah, Executive Director of WIPO Academy, Mr. He Zhimin, the Deputy Director of SIPO, Mr. Wu Kai, the Director of the International Cooperation Division of SIPO, Mr. Wu Xielin, the Deputy Secretary General of Shanghai Municipal Government, Prof. Zhong Zihua, the President of Tongji University, Mr. Pei Gang, the former President of Tongji University, Mr. Jiang Bo, the Vice-president of Tongji University, and the representatives from Shanghai High People’s Court, Pudong New District People’s Court, Fudan University, China Eastern University of Political Science and Law and other schools and faculties of Tongji University. 91 new students from 21 countries have attended the Orientation Ceremony. The Director of Shanghai Intellectual Property Office Mr. Lv Guoqiang presided over the Orientation Ceremony.

Mr. He Zhimin addressed that in recent years, cooperation between SIPO and WIPO has become increasingly close. The WIPO-Tongji MIP in Design further promotes the implementation of the two parties’ intellectual property cooperative agreement and is also the important achievement of deep cooperation of the two parties in talent cultivation. The Belt and Road MIP is one important measure of SIPO for carrying out cooperation on national high-level talent cultivation with countries along the Belt and Road. The implementation of the Belt and Road MIP will provide strong talent support for development of intellectual property protection, improvement of intellectual property environment and expansion of intellectual property international cooperation for countries along the Belt and Road.

Mr. Sherif Saadallah introduced the work of WIPO and shared the development situation of other joint education programs and students of WIPO Academy. He thought that the SICIP is the youngest and the most promising institute among the cooperated institutes. WIPO will continue providing more support and help for the development of SICIP programs in the future.

Mr. Wu Xielin expressed that establishment of SICIP is the important measure for implementing the Memorandum of Understanding of Shanghai Municipal Government and WIPO, the important achievement of “Speeding Up the Construction of Intellectual Property Center Cities in Asian-Pacific Region” and implementation of three rounds of
“Cooperation between Ministry and City” of SIPO and Shanghai Municipal Government, and the step of great strategic significance that promotes Shanghai to build the rule of law, market and cultural environment in the intellectual property field being international. Shanghai Municipal Government will provide wholehearted support for construction of SICIP, focus on talent cultivation and development of discipline, integrate intellectual property teaching and research sources in Shanghai and reinforce the support for funds and projects in order to create a good policy environment for the development of SICIP.

President Zhong Zhihua on behalf Tongji University welcomed the new students from all over the world and expressed his gratitude to leaders and experts for their care and supports on construction and development of SICIP. He introduced the talent cultivation value and education achievements of Tongji University in recent years and hoped that students should strive for integrated development in morality, health, capability, knowledge and aesthetic education during the course that Tongji University takes roots in China and constructs a world-class university. Under the guidance of WIPO, SIPO and Shanghai Municipal Government, Tongji University will certainly make SICIP to become the base for cultivating international high-level intellectual property talents.

Prof. Shan Xiaoguang, the Dean of SICIP, introduced the background of establishment, management system, faculty and talent cultivation pattern.

Prof. Arthur Wolff, the faculty representative, expressed his own understanding of the legal system and intellectual property protection with Chinese characteristics. Ms. Chu Chu and Mr. Filip Simjanovski, student representatives expressed their gratitude to SICIP for providing them with good study and research environment and equipping them with excellent faculty members. They will study hard to become high-level intellectual property talents with capability of international communication.
The Belt and Road Master Degree Program in Intellectual Property (B&R MIP)

Based on international cooperation and exchange of SIPO, the B&R MIP aims to cultivate government officials of intellectual property offices and professionals from countries along the Belt and Road and friendly countries to China. The program has already enrolled 17 students from countries along the Belt and Road such as Russia, the Republic of Belarus, Pakistan, Kyrgyzstan, Macedonia, the Republic of Lithuania, Vietnam, the Philippines, etc.

WIPO-Tongji Master’s Degree Program in Intellectual Property (WIPO-Tongji MIP)

Under the support of SIPO and Shanghai Municipal Government, WIPO and Tongji University signed agreement on jointly cultivation of master degree students in the intellectual property field on November 16th, 2016. The program adopts internationalized and close-to-practice teaching models with teaching language in English, designs courses in interdisciplinary and modularized teaching style and invites international and extracurricular experts to deliver 1/3 lectures respectively.
2017 GRADUATION

38 Graduates

3 PhD in law
15 LLM
20 Juris Master

Employment Statistics of Graduates (%)

- Government offices
- Public institutions
- Government-owned enterprises
- Foreign-invested enterprises
- Other enterprises
- Others
- Beijing
- Shanghai
- Jiangsu Province
- Zhejiang Province
- Anhui Province
- Hubei Province
- Hunan Province
From July 1st to 4th, 2017, SICIP hosted the 2017 Outstanding Students Summer School. Through online application and selection at all levels in SICIP, 35 outstanding students from 27 universities in 12 majors participated in the Summer School.

In the Summer School, SICIP hosted high-quality lectures and carried out practice teaching. Students went to the Unitalen Law Firm and Pudong New District People’s Court for visiting and study and made conversations face to face with well-known lawyers and proficient judges. 30 students took the Excellent Student Award after assessment.

The Summer School featuring with strong intellectual property discipline in Tongji University, aims to attract and promote exchanges between intellectual property experts and young students, to deepen the understanding of excellent students from various universities in Tongji’s intellectual property discipline and international study in SICIP, to enhance the reputation and social influence of the intellectual property discipline of Tongji University, and to attract more excellent students to devote themselves to the development of China’s intellectual property cause.

For the 2018 enrollment, 81% recommended postgraduates were selected from the excellent participants of the Summer School.
Construction of Discipline and Academic Research
Success in Application for Interdisciplinary Doctoral Program of Intellectual Property

In 2017, SICIP gathered discipline leaders, chief experts of Major Projects of National Social Science Fund of China and members of the administrative team of SICIP to apply for the Interdisciplinary Doctoral Program in Intellectual Property combining the disciplines of business administration, applied economics, biology, computer science and technology, and design. The application got approval and support from a number of experts in well-known universities of China, such as Fudan University, Shanghai Jiaotong University, Huazhong University of Science and Technology, Zhongnan University of Economics and Law, and Dalian University of Technology. The application result had been publicized on the website of the Ministry of Education and put on record. SICIP is actively preparing the enrollment and cultivation plan for doctoral students in 2019.
Achievements in Application of Research Projects

1. Major Project of the National Social Science Fund of China
2. Youth Project of the National Social Science Fund of China
3. Ministerial and Provincial Level Projects
4. Major Project of the National Social Science Fund of China Completed Exempting from Review

52 research articles
17 special reports for policy consultation provided to the Ministry of Science and Technology, SIPO and Shanghai Municipal Government
2 special reports for policy consultation positively commented by the main leaders of the Chinese government

- Undertook 2 research projects, temporary research tasks and emergency research reports commissioned by SIPO
- Accomplished 12 “IP Information Express” more than doubling of the prescribed task
- Got praise from the leaders of the Protection Coordination Division of SIPO
- Rated as the Excellent Base in 2017
- Expert suggestions proposed by the faculty member obtained important positive comments from the main leader of the Chinese government
Academic Activities
MAR 21th: Lecture on Trademark Management in Europe
MAR 28th: Lecture on Issues in the revision of Unfair Competition

In order to deeply implement the innovation-driven development strategy, the national intellectual property strategy and the spirit of strengthening cooperation between universities and practical departments of the Ministry of Education, the Tianjin Patent Examination Center of SIPO and SICIP of Tongji University signed cooperative agreements on matters concerning intellectual property talent cultivation and innovation and application of intellectual property especially in the aspect of medical issues relying on the advantages of research strength of Tongji University as well as patent professionals and information sources of Tianjin Patent Examination Center.

Cooperation with the Tianjin Patent Examination Center of SIPO

On April 13rd, 2017, when the 17th World Intellectual Property Day was approaching, the “7th Oriental Rule of Law Forum and Intellectual Property Legal Protection Symposium” was hosted by SICIP and Shanghai Pudong New District People’s Court and the Practice Base cooperated by SICIP and Pudong New District People’s Court was unveiled. The Director of Shanghai Intellectual Property Office Mr. Lv Guoqiang, the Vice-president of Tongji University Mr. Jiang Bo, the Vice-president of Shanghai Law Association Mr. Shi Jixiong, and the President of Pudong New District People’s Court Mr. Zhang Bin attended the symposium and gave speeches. The Vice-president of Pudong New District People’s Court Mr. Zhu Dan presided at the symposium.
SICIP Got Great Support from Several Sectors of Society

The SICIP Development Foundation has been almost completed as expected amount of 10 million RMB. The sponsorships from enterprises and institutions to the SICIP, such as the Lubansoft, Kaisa, Siemens, Unitalen Law Office, lay a solid foundation for the development of Industry-University-Research Collaboration at SICIP.
